**International Instrument to Enable States to Identify and Trace,
in a Timely and Reliable Manner, Illicit Small Arms and Light Weapons (ITI)**

- National reports are the primary tool to assess the implementation efforts of the Programme of Action.
In 2008, States requested further standardisation in reporting.
This reporting template was developed to combine user-friendliness with increased analytical value, and was welcomed by all States in 2010.
It closely follows the Programme of Action and the International Tracing Instrument.
- Not all areas may be applicable or a priority to every state. Therefore, please note that there are no ‘right’ or ‘wrong’ answers.
- States could provide a full report for their next report due before the Programme of Action Review Conference Preparatory Committee, scheduled for 19-23 March 2012. Thereafter, an update on relevant sections every two years would suffice.
- Only formally identified National Points of Contact or the Permanent Missions of Member States can submit a national report.
- The reporting template can be downloaded. Draft versions can be saved and printed, in order to obtain internal approval where necessary, before submission.

Section 2: Manufacture

<i>Sources</i>	<i>Question</i>	<i>Yes</i>	<i>No</i>
----------------	-----------------	------------	-----------

Laws, regulations and administrative procedures

4. Are there any SALW manufactured in your country?

National SALW manufacturing capacity is housed within the Defence Industries Corporation of Nigeria (DICON). Established in 1964, DICON's aim is to produce SALW and ammunition for the national armed services.

In addition, artisanal (craft) production of weapons takes place in Nigeria, which is essentially illegal because it is criminalised by the country's constitution.

[if no, go to 5]

PoA II.2 4.1 Does your country have laws, regulations and/or administrative procedures to exercise effective control over the manufacture of SALW?

[if no, go to 4.2]

4.1.1 List laws, regulations and/or administrative procedures regulating the manufacture of SALW in your country:

Firearms Act 1959; Defence Industries Corporation of Nigeria Act 1964

Part VI, sections 23-27 of the existing Firearms Act 1959, regulate the manufacture, assembly and repair of firearms and ammunition. Request must be made to the President, via the Inspector-General of Police, who is required to maintain a register of all licenses granted. This Act is due to be replaced by the draft Firearms Bill currently under consideration.

Sections 39 - 43 of the draft Firearms Bill, 2014 seek to regulate the manufacture and repairs of firearms and ammunition. As per the existing regulation, request must be made to the President, via the Inspector-General of Police, who is required to maintain a register of all licenses granted.

4.1.2 Does your country license the manufacture of SALW?

PoA II.3 4.1.3 Is illegal manufacture of SALW considered a criminal offence in your country?

Part VII, section 28(1)(a)(iv) of the existing Firearms Act 1959 makes it a criminal offence to manufacture, assemble, or repair firearms and ammunition without a permit. This carries a minimum 10 year sentence. Under section 44 of the (new) draft Firearms Bill (forthcoming), the offence of illegal manufacture carries a minimum 25 year sentence.

Marking at manufacture

PoA II.7: ITI 8a 4.2 Does your country require that SALW be marked at the time of manufacture?

Part VII, section 42 of the existing Firearms Act 1959 stipulates that 'every firearm shall be stamped by the manufacturer on the wooden stock or other suitable place with the manufacturer's name and number, or mark or
